

wüber
swiss made

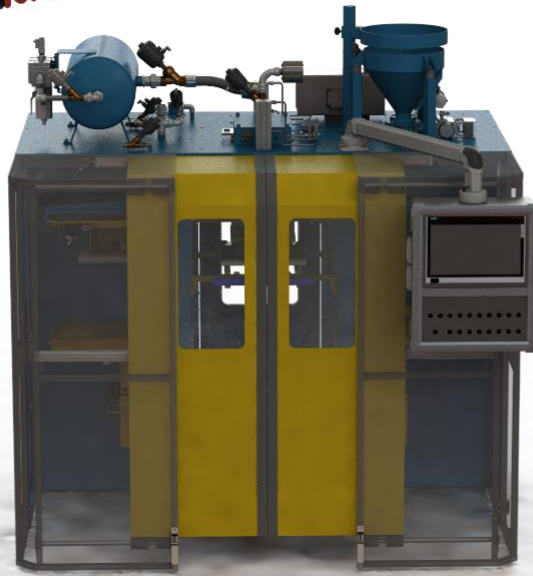

Technical data	C2XS
Shoot volume [liters]	max. 15l
Corebox size maximum [mm]	600 x 600
Shoot area maximum [mm]	300 x 300
Corebox weight maximum [kg]	2000
Closing force horizontal	75 kN
Dry cycle time* [s]	13
Machine dimensions WxDxH [mm]	ca. 2400 x 1900 x 2600

* machine cycle time in automatic mode without parameters for shooting time, gassing, exhaust
- considering stroke optimized horizontal parted toolings

wüber

swiss made

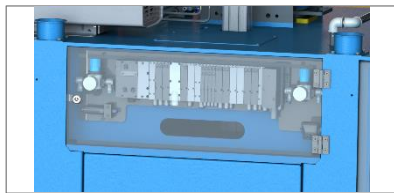

Advantages and special functions

- compact design
- movable shooting and gassing units
- Shooting unit with shoot screen instead of tube
- shootplate cleaning station
- energy-efficient hydraulic unit
- hydraulic unit integrated in machine frame
- Control cabinet integrated in machine frame
- state of the art graphical user interface

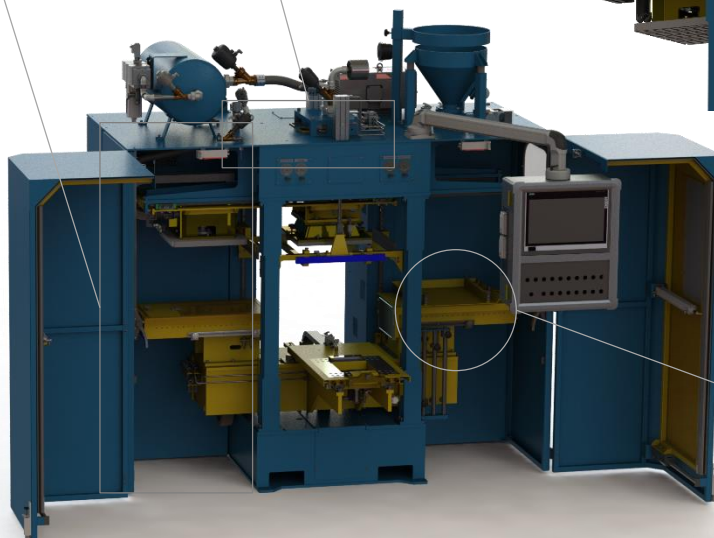

hydraulic unit integrated
in machine frame

pneumatics integrated
in machine frame

movable shooting and gassing units
shooting unit with shoot screen

shootplate cleaning station
